Indian Nanoelectronics Users Program-Idea to Innovation

INDIAN INSTITUTE OF TECHNOLOGY MADRAS

NANOTECH HACKATHON

Registration Closes on
20-10-2022

Innovative solutions for *"Grand Challenges for India"* through nanotechnology...

The Nanotech Hackathon is a nationwide contest for students/academic researchers to come up with a nanotechnology-based solutions for the grand challenges that India is facing as a developing country.These grand challenges are mainly in the areas of Agriculture, Health Care, Energy, Environment, Security, Smart Cities, Defence etc.

Applications are invited!

☑ **Submit your ideas on nanotechnology based devices targeting cost-effective products and services for societal needs.**

☑ **This Hackathon's focus is on 'Energy & Environment' and 'Healthcare Devices & Technologies'.**

Eligibility
- Minimum 18 years as on the date of applying : No upper age limit.
- Proposal submission can be done by a single participant or a group having maximum 4 members.

Facilities
Details of facilities available at the centre can be found at the URL below
https://mems.iitm.ac.in/cnnp/capabilities/

Support from INUP, IIT Madras
- Infrastructural & Technical Support
- Technical Mentoring.
- Fabrication & Characterization.
- Connect with the facilities for packaging and prototype testing.
- Connect with the start-up Incubators.

Important Dates
Submission Deadline: 20-10-2022
Declaration of Results: 15-11-2022
